1. Claims 1-30 remain for examination.
2. Applicant is reminded that some indication of what is utilized to achieve the objective of the invention in the abstract would be beneficial.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - (a) Claim 1, "managing a pendency status" is an abstract description, and it is not clear what operation is performed.
 - (b) Claim 1, it is not clear what "data hazard" relates to and how it is prevented.
5. Applicant's arguments filed April 12, 2005 have been fully considered but they are not persuasive.

Applicant argued, by referring to the specification, that data hazard is prevented by storing or tracking logical values in a data structure based on the pendency status.

The claims, however, do not recite the limitation identified by the applicant and other limitations to fully clarify the invention.
6. Claims 5-30 are allowed over the prior art of record.

Art Unit: 2111

In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
